

**Lawn Care Operators  
participating in  
Water Quality Agreement Program  
with  
The Virginia Department of Conservation and Recreation**

**July 31, 2013**

*The following lawn care operators voluntarily enter into an agreement with DCR to protect and improve Virginia's ground and surface waters. These companies are working with DCR to safeguard these resources by following proper lawn fertilization practices and recommending sound homeowner lawn maintenance practices by following a Nutrient Management Plan approved by DCR. This plan covers the amount, placement, timing, and application of nutrient containing materials, such as fertilizer, to help protect Virginia's water resources. They also agree to teach their employees to use the Nutrient Management Plan to responsibly apply and handle lawn care products.*
