# THE 2019 ANNUAL PLANT SALE

## Virginia Western Community College Arboretum

### Saturday, May 11, 9:00am - noon

A big thank you to each of you who helped to make our plant sale a success! Thanks for potting plants and for babysitting them, and for arising early on a Saturday to help set up. We really appreciate the plants you brought from your own gardens. Gail McFarlane and Bill Modica brought in record numbers of plants, both in the hundreds!

Special thanks go out to Mike Belcher, our unofficial chairman by virtue of his expertise and experience, who kept us organized and focused.

Our treasurer, Kathy Sink determined, "According to the net results from prior years, this is now the second highest net total achieved. The all-time high is \$3,347 from 2017."

At the checkout table Stew and I heard many enthusiastic compliments about our sale. Many voiced their appreciation of our knowledgeable members who worked on the "front line," advising customers on purchases. Others were enthusiastic about how well organized we were and how many beautiful plants we had. Some, who had apparently made the rounds of many sales, told us that this was the best they'd seen! All were invited back for next year's sale.
