Jessie Harris to Speak at April Meeting
Thursday, April 25
7:30 - 8:30 pm
Green Spring Gardens Park, Annandale, VA

Every one is invited to come to our April meeting to hear photographer Jessie Harris, who has photographed many of our area’s little known native plants. Ms. Harris will treat us to tales of her adventures as we enjoy her exquisite slides and learn why some local plants are so rare. Please call Alonso Abugattas (703)528-8529 to reserve a space and to get directions. The program will be preceded by a short board meeting at 7:00, which members are welcome to attend.

Winter Tree Identification

Many thanks to Cris Fleming for providing us with such an informative and enjoyable program on winter tree identification at our January meeting! The winter months are particularly difficult for some of us who miss being able to go out and enjoy our native plants, but Cris’ talk provided the knowledge and inspiration to get out in the cold and continue to learn. Thanks also to Joan VanRyzin for providing such a bountiful refreshment table.

Spring Plant Survey at Teddy Roosevelt Island
Saturday, April 27 9 am - 12 pm
Rain or Shine!

Any one interested in plant identification is encouraged to come out and help conduct our annual plant survey at the island. We’re looking for a group of around 12 individuals to work together in teams to conduct sample surveys to help measure our progress toward ridding the island of exotic invasives. Everyone is welcome, no matter what your level of plant identification skills. Those with less experience will be teamed with those who can offer guidance. Come out and see the results of our English ivy pulls!

The island itself fared better than expected during the recent floods, and we’re expecting an abundance and variety of spring wildflowers.

Plan to bring plant identification books or field guides, hand lens, and dress according to the weather (it may be muddy). Note that the island parking lot is only accessible from the northbound George Washington Parkway, before Key Bridge. Please call Abbie Duchon to RSVP and to get directions. (301)320-0358.

Successful Fall Sale Ends the 1995 Season

Our September sale broke all previous records for fall sales. Although the drought discouraged many gardeners and the visitors to Green Spring Gardens Day were less in number than those attending in previous years, our sale was very successful.

We have been working on offering a greater variety of native plant seeds. Thanks to the effort of Edith Bradbury who set up our first effort to offer seeds and to the effort this year of Gale Minnich-Blewis, we more than doubled the number of seed packages bought by the public. We hope to work on making the sale of seeds an even more attractive option in the future with better “merchandising” and assistance to our customers.

We on the Propagation and Sale Committee thank our membership for their continued support of our activities. Each sale we are offered prized plant donations and offers to help on the day of the sale. Our crew works very hard during the entire growing season to maintain the beds, weed, and pot up plants for the sale and it is gratifying to get so much support from our members.

I want to recognize those members continued on page 3
Newsletter Editor Needed

The Potowmack Chapter is seeking a volunteer to take over responsibility for producing our newsletter. This is because our current editor is also our current president. Unfortunately, I am unable to perform both functions. Any one interested in helping the Chapter out should call Mark Etheridge (301)293-2659.

We publish four issues of the newsletter annually, with each issue usually containing six to eight pages. The editor compiles each issue, has it printed, and mails them out. Mailing labels are provided by the Membership Chairperson. Content is supplied by other Chapter members. Currently I put each issue together on a Macintosh Computer running Quark Express. The newsletter editor is a member of the board and attends the monthly board meetings.

Other duties include creating and having copies made of special event flyers, such as for the plant sales each spring and fall.

This is a great opportunity for some one to become involved in the Chapter. To function as a Chapter, we must have a newsletter to keep the membership informed. If you think you might be interested, please give me a call and we can talk about it.

President's Message

By Mark Etheridge

If you thought you had missed a newsletter, you haven’t. It’s just that things haven’t been running as smoothly lately as they did while Nancy Luria was president, and I’ve not gotten a newsletter out. Hopefully we’ll be able to find some one to take over that responsibility soon, and every one will be kept aware of our Chapter’s activities. And our Chapter continues to be very active.

We’ve got our annual spring and fall plant sales, wonderful program events, the Native Plant Trail, a project to work with local teachers, the Teddy Roosevelt Island plant survey, several plant walks, and we’re trying to increase our slide collection...just to name a few things. And the common thread that runs through all our activities is the desire to educate and make more people aware of the value of our native plants. That’s really the key to having an impact on how our environment is managed. People have to KNOW about native plants in order to care about them.

I don’t remember how I found out about VNPS...I think I saw an ad for a butterfly talk somewhere and went to Greenspring to hear it. That’s how I got pulled in. The point is that once I found out about it, I wanted to learn more, and VNPS was there to offer me ways to do that. I hope that we can continue to make others aware of what we do and of the importance of safeguarding our native plants and natural habitats. We all know how wonderful native plants are...the challenge is to get others involved and make them aware.
In addition to our new plants, we have also added some very active new members to our group. We are always looking for additional members who would like to join us in learning about maintaining the plants we grow. If you are interested in working in the propagation beds, please feel free to call me at (703) 323-1094.

And please remember to mark MAY 18 and SEPTEMBER 14 on your 1996 calendar. Those are the dates for this year’s plant sales!

Gerry Pratt, Chairperson
Propagation and Sales

PS - Don’t forget to save your plastic pots for us. We can always use more...no market packs, please. Just bring them to the VNPS propagation beds at Green Spring Gardens Park.

Making Headway
by Alonso Abugattas

For years the Virginia Native Plant Society has extolled the virtues of our native flora while warning of the dangers posed by invasive (often exotic) plants. That effort to inform the public is finally paying off as many different groups and organizations are also taking up the call. The following should serve as examples:

The Congress had its Office of Technology Assessment conduct a study in 1991 entitled “Harmful Non-Indigenous Species in the United States.” This study, though it does not set forth many ways to control invasive plants and animals, recognizes the threat. Let’s hope today’s Congress heeds these findings.

Bee-Keepers are realizing that they lose millions of dollars yearly in unusable honey produced when Ailanthus is in bloom.

Many Park Systems (including most of our local ones) are trying to control invasives as part of their resource management despite shrinking budgets.

Waterfowl hunters and duck clubs are realizing the threats of purple loose-strife and phragmites to wetland habitat and are actively trying to eliminate them.

Boaters support efforts to control hydilla and other aquatic vegetation that block waterways and ruin motors.

Many nurseries are starting to give in to public pressure and demand by selling more native plants and refusing to sell invasives.

Butterfly enthusiasts, such as local expert Mr Harry Pavulaan, are confirming observations about garlic...
mustard. Seems that a certain native butterfly called the West Virginia White is slowly breeding itself into extinction. How is that? Well, its normal host plants are various species of Toothwort, but now it prefers to lay its eggs on garlic mustard. Unfortunately, this invasive plant is toxic to the caterpillars who are then poisoned off.

These are just a few of the many examples of how people are realizing the very real threat posed by invasive plants. As more people become aware, we can all pool our resources to help restore and protect our native flora and all the animal life that depends on them. That is why our efforts, through groups like the VNPS, are so important. We have a long way to go but we're making headway.

---

**Guided Tour of Winkler Preserve**

Saturday, May 4, 10-11:30am

The Winkler Botanical Preserve is Alexandria City's largest and most beautiful woodland wildlife sanctuary with over 500 species of native plants. Those of you who got rained out on the day of our annual meeting have another chance to tour the preserve and hear about some of the work that is carried out there. Call Alonso for reservations: 358-6535 at work or 528-8808 at home. If you have questions concerning any of the walks or programs on the calendar of events (particularly the joint activities planned with the Md. Native Plant Society), please feel free to give me a call.

SPRING CALENDAR

(The Most Complete Plant Events Calendar in the Area!)

Compiled by Alonso Abugattas

Mar. 9 Saturday Old Grove Hemlocks at Scotts Run Preserve w/ Md. Native Plant Soc. 10am. Page Richard Falcone: (301) 935-1523.

Mar. 9 Saturday VNPS Plant Propagation Workshops 10-4:00 at Richmond. Free to VNPS Members! Call Effie Fox: (540) 347-4090.

Mar. 16-17 Weekend Native Orchids Propagation Conference at National Arboretum. $90. Call Carol Allen: (301) 258-0313.

Mar. 17 Sunday Great Falls Wildflower Walk w/ Marion Lobstein. 10am-12:30pm. For info. call Ms. Lobstein: 536-7150.

Mar. 22 Friday Introduction to Spring Wildflowers. 7:30-9pm. Call Hidden Pond Nature Center: 451-9588.

Mar. 23 Saturday Woodland Wildflower Gardening w/ Marie Davis of Prince William Wildflower Soc. 2-3pm. Call Ellanor C. Lawrence Park: 631-0013.

Mar. 24 Sunday Roosevelt Island Plant I.D. w/ Marion Lobstein. 9:30am-3pm. Call Smithsonian Resident Assoc. Prog.: (202) 357-3030.

Mar. 24 Sunday Spring Signs Walk. 2-4pm. For families. Call Gulf Branch Nature Center: 358-3403.

Mar. 30 Saturday Horticulture for a Better Environment Seminar. 8:30am-4pm. $15. Call Green Spring Gardens Park: (703) 642-5173.

Mar. 30 Saturday Wildflower Propagation w/ Denise Gibbs of Audubon Naturalist Society. 9:30am-12:30pm. $15 - $20. Call ANS: (301) 652-9188.

Apr. 2 Tuesday Wildflowers at Scotts Run Nature Preserve. 9-11am. Call Riverbend Park: 759-9018.

Apr. 3 - May 29 Wildflower I.D. Course w/ Cri Flemming. Weds. evenings 7-9pm. $159. Call USDA Graduate School: (202) 690-4280.

Apr. 3 & 10 Wed. Wildflower I.D. Lectures w/ Marion Lobstein. 7-9:30pm. Field trip to Riverbend Park on Apr. 13, 9am-3pm. $25. Call Green Spring Gardens Park: 642-5173.

Apr. 6 Saturday Wildflowers at Turkey Run & Great Falls w/ Cri Flemming. 9am-4pm. $24/$36. Call Audubon Naturalist Soc.: (301) 652-9188.

Apr. 9 Tuesday Wildflowers at Roundtree Park. 10:30-11:30am. Call Hidden Oaks Nature Center 941-1065.

Apr. 9 Tuesday Wildflowers at Riverbend Park. 9:00-10:30am. Call Riverbend: 759-9018.

Apr. 9 Tuesday Birds & Blooms along C & O Canal. 9am-12:30pm. Call Long Branch Nature Center: 358-6535.

Apr. 13 Saturday Plummer's Island or C & O Canal (if accessible) w/ Pam Newitt. 10am-12pm. Call Alonso: 358-6535 or 528-8808.
Potomack News

Wildflowers at Ft. Washington National Park. 10:00am-2:30pm. $5. Call Ramsay Nature Center: 838-4829.

Plant I.D. Seminar at U Va’s Blandy Experimental Farm w/ Marion Lobstein. 9:30am-3pm. Call Blandy: (540) 837-1758.

Wildflowers Along C & O w/ Cris Flemming. 10am-12pm & 1-3pm. $11/$15. Call Smithsonian Resident Assoc. Prog.: (202) 357-3030.

Goose Creek Reservoir w/ Gary Hopper of Md. Native Plant Soc. Call Richard Falcone: (301) 935-1523.

Wildflowers at Great Falls w/ Marion Lobstein. 10am-12:30pm. Call Ms. Lobstein: 536-7150.

Wildflowers at Balls Bluff w/ Marion Lobstein. 2:30-4:30pm. Call Ms. Lobstein: 536-7150.

Bluebells at Bull Run. 2-3pm. Call Potomac Overlook Regional Park: 528-5406.

Slide Program on Maryland Rarities by Jesse Harris! 7:30pm at Green Spring Gardens Park. Board Meeting at 7:00 open to all VNPS members. Call Green Spring: 642-5173.

Virginia Native Plant Trail Tour. 10-11am. Call Green Spring Gardens Park: 642-5173.

Pohick Wildflower Walk. 10:30am-noon. Call Hidden Pond Nature Center: 451-9588.

Balls Bluff & Red Rock Overlook w/ Cris Flemming. 9am-4pm (Lecture Thurs Apr. 25, 7:30-9:30pm). $30/$42. Call Audubon Naturalist Society: (301) 652-9188.

Wildflowers at Blandy Experimental Farms & Thompson Wildlife Mgt. Area w/ Marion Lobstein. 9:30am-3pm. Call Blandy: (540) 837-1758.

National Arboretum Tour w/ Marion Lobstein. 9:30am-2:30pm. Call Smithsonian Associates: (202) 357-3030.

Pink Lady’s Slipper Walk. 2-3pm. Call Hidden Oaks Nature Center: 941-1065

VNPS Trip - Trilliums at Linden! Call Anne Crocker at 437-0355.

Guided Tour of Winkler Preserve! 10:00am (To make up for the VNPS chapter annual meeting tour that was rained out). Call Alonso at 358-6535 or 528-8808.

Thompson Wildlife Mgt. Area and State Arboretum of Va. (Blandy Experimental Farm) w/ Marion Lobstein. 8:30am-6:30pm. Call Smithsonian Resident Assoc. Prog.: (202) 357-3030.

Pink Lady’s Slipper Walk. 2-3pm. Call Hidden Oaks Nature Center: 941-1065.

Potomac Overlook Open House - featuring Circle of Life Garden. 1-4pm. Call Potomac Overlook Regional Park: 528-5406
